CORE SKILLS

FRONTEND

- React
- Next.js
- TypeScript
- JavaScript
- HTML5
- CSS3
- Tailwind CSS
- Shadcn UI
- Redux
- Zustand
- React Query
- TanStack Table
- Framer Motion

BACKEND / INTEGRATION

- REST API
- API Integration
- Authentication
- State Management

LIBRARIES

- React Hook Form
- Zod
- Radix UI
- Nuqs
- Sonner

TOOLS

- Git
- GitLab
- Docker
- Vite
- ESLint
- Prettier
- VS Code

ENGINEERING STRENGTHS

- ✓ Clean Code Architecture
- ✓ Component Design
- ✓ Performance Optimization
- ✓ Problem Solving
- ✓ Team Collaboration
- ✓ Continuous Learning
- ✓ Product Thinking

EDUCATION

MSc 2023 – 2025
Artificial Intelligence and Soft Computing
GPA: 17 / 20

BSc 2018 – 2022
Computer Engineering

PROFESSIONAL SUMMARY

Front-End Engineer with 4+ years of experience building scalable and user-focused web applications using React, TypeScript, and modern frontend technologies. Experienced in designing reusable component systems, integrating complex APIs, improving application performance, and delivering production-ready products. Passionate about clean architecture, modern UI development, and creating impactful user experiences.

EXPERIENCE

- **Front-End Engineer · Test Sho** [Largest Project](#) 2022 – Present

- Developed and maintained complex production-level frontend applications using React, TypeScript, and Vite.
 - Built reusable component systems and scalable UI architecture.
 - Integrated REST APIs and managed complex application states.
 - Improved user experience, performance, and maintainability.
 - Collaborated with cross-functional teams to deliver product features.
- **Front-End Developer · Ordibehesht** 2021 – 2022

- Developed responsive web applications using the React ecosystem.
 - Created reusable UI components.
 - Improved frontend architecture and user experience.
- **Front-End Developer · Karaj Municipality** 2020 – 2021

- Built internal web applications.
 - Integrated backend services through REST APIs.
 - Improved usability and application performance.
